To whom it may concern,

RE: CONSUMER PRODUCT SAFETY IMPROVEMENT ACT (CPSIA).

We appreciate you as our customer, and we are committed to providing you the very best service. We are also committed to using the safest materials to produce your books.

As you are aware, Congress recently passed Law HR 4040 concerning Lead and Phthalates content in products. We have been researching this issue as it relates to the materials used to manufacture our books, especially as titles would be considered geared towards children 12 or younger.

I am pleased to report that the contents of the inks and coatings utilized in manufacturing your books are in compliance with all current federal regulations. Specifically, our inks have a lead content well below those required by the recently enacted Consumer Product Safety Improvement Act.

We have letters on file from these, our primary partner plants engaged in book manufacturing, stating full compliance:

McNaughton&Gunn, Inc., Saline, MI  
ColorHouse Graphics, Inc., Grand Rapids, MI  
Pacifica Communications, Seoul, S. Korea  
Regal Printing, Ltd, Hong Kong  
Lammar Offset Printing, Ltd, Hong Kong  
Friesens Book Printing Co., Altona, MB  
Rogers Printing, Inc Ravenna, MI  
Friesens Printing, Winipeg, MA  
Artron Color Printing, Ltd, Shenzhen, PRC  
Amity Printing, Nijanting, PRC

If you have any further questions, or if you would like copies of support documentation, we are happy to provide detailed specifications.

We are grateful for our partnership together.

Sincerely,

Rinck J. Heule
